Dynamic software developer with hands-on experience in IoT, web development, and real-world technical applications. Skilled in JavaScript, React.js, Node.js, Express.js, and MongoDB. Demonstrates strong problem-solving, collaboration, and project management abilities. Adept at building responsive, user-focused solutions using modern frameworks and tools.

EDUCATION

Dayananda Sagar Academy of Technology and Management, Bangalore
Electrical and Electronics Engineering, B.E.
Jun 2023
Masai School
Full Stack Web Development
Aug 2025

SKILLS

Technical Skills: HTML5, CSS3, JavaScript, React, Redux, Express.js, Node.js, MongoDB, RESTful APIs, Git

Soft Skills: Problem Solving, Time Management, Teamwork, Adaptability, Effective Communication

EXPERIENCE

Bangalore Metro Corporation Limited | *Intern*

Aug 2022 - Sep 2022
- Assisted in project coordination across civil, electrical, and signaling departments
- Analyzed metro rail operations and infrastructure systems for process improvement
- Supported documentation and compliance tasks for regulatory standards
- Observed and reported on safety protocols and quality assurance measures

PROJECTS

QuickCart |

- 🚩 Deployed Link : https://quick-cart-mauve-two-89.vercel.app/
- Github Repo : https://github.com/irsuhail/Projects
- Developed a responsive e-commerce application using React, Next.js, and JavaScript for modern user experience.
- Implemented personalized product recommendations by analyzing user preferences and behavior.
- Integrated secure payment gateways to ensure safe and reliable checkout processes.
- Designed a dynamic product catalog with advanced filtering for easy and efficient product discovery.

QuickStay |

- 🚩 Deployed Link : https://quickstay-theta-two.vercel.app/
- Github Repo : https://github.com/irsuhail/Hotel-Booking
- Contributed to developing a full-stack hotel booking web application with real-time room availability and booking management features.
- Implemented secure user authentication and integrated payment gateways to ensure safe online transactions.
- Assisted in creating role-based dashboards tailored for travelers, hotel owners, and administrators.
- Used technologies such as React.js, Node.js, Express, and MongoDB to build scalable and user-friendly interfaces.
